

VISA INFORMATION

International registrants should be particularly aware and careful about visa requirements, and should plan travel well in advance. The IEEE CCWC 2018 does not issue formal invitation letters or actual visas to attend the conference, however, can issue Visa Support Letters for the application.

Please send your request to conference@ieee-ccwc.org. You must include:

- Your name as appears on your passport
- Your current postal mailing address
- The name of the conference you are attending (i.e., IEEE CCWC 2018)
- Your Registration Confirmation Number
- If you are an author of an accepted paper or poster, please provide the title.

Please note Visa Support Letters are issued via email by PDF within approximately a week after the acceptance is sent or after the payment of registration fees for only participants or in case of emergency if you don't get the visa. The CBSA letter found in the website may also be useful when applying for a visa.
